

**Dust can influence comfort, safety and productivity.
Keep dust under control – with Hilti.**

Dust can't be ignored.

Dust is generated by many of the processes carried out in the construction industry such as cutting, grinding, slitting or breaking. At a minimum, this can result in an uncomfortable work environment. While these issues are well known, controlling airborne dust has historically been a challenge.

Another important aspect is that dust can have a negative impact on the lifetime of power tools and consumables or on the working processes on the job site (non-working time or additional labor time for cleaning), which can result in reduced productivity and higher costs.

Keep dust to a minimum – with Hilti.

Hilti is committed to helping you reduce the risks your workforce is exposed to, and increase your productivity on site – with product and service solutions that greatly reduce exposure to dust in many everyday jobs on the construction site. It's time to take advantage of all the benefits of Hilti dust removal systems – because dust can be a hazard and a costly issue that simply can't be ignored.

**For increased working comfort,
safety and productivity!**

Keep dust under control!

Less dust on the job site means

- higher comfort and better protection for the workers
- a more precise and efficient working procedure
- less valuable working time spent cleaning up afterwards

Efficient dust removal helps

- increase the lifetime of power tools and consumables
- reduce tool downtime
- cut the cost of repairs and maintenance

A high-performance, easy-to-use dust removal system allows

- efficient and productive use (reduction of labor time)
- less time and money spent on training and instruction
- fewer sources of error / incorrect handling

Wide range of solutions.

Hilti offers comprehensive solutions that keep dust to a minimum in virtually every conceivable job on the construction site such as grinding, slitting, cutting or breaking, to name only a few.

When we say systems, we mean systems!

Four components – one winner. Hilti DRS dust removal systems make countless jobs virtually dustless. All system components, including power tools, drill bits, discs, blades or other accessories as well as fully integrated systems, are perfectly matched to maximize the amount of dust removed at its source and collected efficiently by the vacuum removal system.

These are the four components of the Hilti system – the system that wins hands down. Dust simply doesn't stand a chance!

DRS Dust Removal Systems

1. The consumables 2. The power tool 3. The accessories 4. Hilti vacuums

Hilti. Outperform. Outlast.
